DETAILED ACTION

Priority

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114.

Applicant's submission filed on 12/09/ 2007 has been entered.

Therefore Claims 61 to 80 and 91-110 as recited in the amendment filed with the RCE are currently pending in the Application.

Claims 41 to 60 , 81 to 90 and 111 to 128 have been cancelled.

Information Disclosure Statement

All the previously filed IDSs in the file including the IDS filed on 7/18/2005, 8/15/2005, 11/03/2005 and November 22, 2004 (entered June 15, 2005) *have* been considered and a copy of the initialed PTO-1449s have been mailed to the Applicants.

The two new IDSs (dated 12/09/2007 along with the RCE and that filed later on 2/12/2008) have been considered and a copy of the initialed PTO-1449s enclosed herewith.

Allowable Subject Matter

Claims 61 to 80 and 91 to 110 are allowed.

Reasons for allowance

The following is an examiner's statement of reasons for allowance:

The prior art taken either singularly or in combination fails to anticipate or fairly suggest the limitation of the dependent claims, in such manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to

Art Unit: 2814

teach a combination of all the claimed features as presented in independent claims (61, 71, 91 and 101)which include the method of forming an active matrix type display device including the steps of forming an organic leveling film over said semiconductor film after the patterning of the semiconductor film to provide a leveled upper surface and before forming an opening having a tapered configuration so that a diameter thereof is larger at an upper portion than at a lower portion of the opening and wherein the upper portion of the opening is rounded from a first point on said upper leveled surface of the leveling film to a second point inside the opening adjacent the upper opening and then forming a pixel electrode in the opening.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Steven H. Rao whose telephone number is (571) 272-1718. The examiner can normally be reached on 8.30-5.30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Wael Fahmy can be reached on 571-272-1714. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
